### Total Script Coverage

Scripts received by an agency or production company are almost always covered by a reader. Agents, executives or producers use this evaluation to determine whether to proceed with consultation and further development.

We have modified our coverage to provide you with valuable notes:

- 1-5 page coverage report of basic and unbiased evaluation, addressing general elements such as concept, commercial potential, theme, character, plot and dialogue.
- One-hour story meeting over the phone including free recorded call.

This service is ideal for writers that have already had an in-depth analysis on their script and require a second opinion before they market it. This gives an indication of how a typical reader at most agencies, production companies and studios may react to your script. If you are seeking in-depth feedback, then Total Script Coverage is not the right service for you.
